Forecast for Sunday 29 Jan 2023

Weather: Overcast with mist and drizzle overnight and early morning. The low cloud and mist lifting and clearing later in in the morning, any drizzle dying out. Some brighter spells in the afternoon, before cloud thickens and lowers again through the evening.

Chance of cloud-free hill tops above 600m: 20% rising to 70% early afternoon, falling 20% again later in the evening.

Low cloud and visibility: Occasional or patches around the summits during the middle of the day, but extensive, base 200-500m, early and late in the day. Visibility mainly good or very good around the middle of the day, but moderate to very poor early and later.
